***The Yarn Dyeing Specialists***

# About Us

Mazhar Shafi Textiles (Pvt) Limited has emerged to become one of the most modern yarn dyehouses in Pakistan providing quality yarn dyeing through cutting-edge technology, innovation and on-time delivery. More than 20 years of management experience in processing and yarn dyeing has extended our customer base in yarn dyeing around the globe (**China, Sri Lanka, Turkiye, Europe and Middle East**). Major textile exporters in Pakistan (**such as Interloop, Nishat, Sapphire, Kohinoor**) are satisfied customers of Mazhar Shafi Textiles (Pvt) Limited and use our yarn dyeing services to make products for their international customers such as **Nike, Adidas, Target, Lidl, Primark, etc.**

## Products & Services

We offer yarn dyeing services to socks, towel, knitted fabrics and woven garment manufacturers who require bleach or dyed yarn for their value added products. We can dye

Cotton	Spandex
Polyester/Cotton	Cool Max
Kevlar	Bamboo

and many more...

## Plant & Machinery

The dyehouse has a capacity to dye up to 10 tons per day and is equipped with the latest machinery from Europe: Thies GmbH & Co. (Germany), SSM (Switzerland), Galvanin (Italy), Stalam (Italy). To ensure RFT and superior color matching and quality, our state of the art lab is equipped with latest equipment from top suppliers such as DataColor (USA), which includes Spectrophotometer, Auto Dispenser, COF Tester, infra red lab dyeing machines, yarn testing and color fastness testing.

This demonstrates our commitment to quality and the ability to handle large-scale-orders, as well as the flexibility to handle small batches from 50kg to 850kg.

Dyeing (Thies, Germany)

Winding (SSM Switzerland)

RF Dryer (Stalam, Italy)

## State of The Art Lab Equipment

*"We pride ourselves on delivering outstanding quality products and working in close partnership with our customers to meet their exact dyed yarn requirements."*

**Spectrophotometer**  
(DataColor USA)

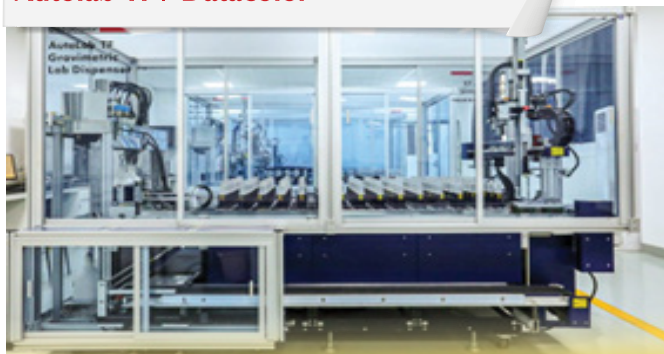

**LABWIN**

Laboratory Package  
Dyeing Machine

**Autolab TF | Datacolor**

## Future Projects

Our yarn dyehouse is ideally placed to offer dyed yarns for making products like socks, towel, knitwear, yarn dyed fabric and apparel. Taking forward the idea of "Growth & Innovation" we plan towards vertically integrated multi-category company in near future, preferably as a joint venture in emerging areas like socks, towel, seamless apparel, etc., where our extensive experience in yarn dyeing can make a difference!

## Eco-Friendly & Sustainable Operations

Mazhar Shafi Textiles is proud to be an environmentally responsible company, using eco-friendly dyes, chemicals and renewable green energy [i.e. solar power (360KW) and bio-mass boiler (low emissions of sulphur and other air pollutants)].

The installation of a modern Effluent / Wastewater Treatment Plant (from Panta Rei, Italy) shows our commitment towards pollution free environment. Certifications like OekoTex, GOTS, OCS and future compliance with ZDHC and ZDL reinforce our vision of environmental sustainability.

### Effluent/Waste Water Treatment Plant (Panta Rei, Italy)

*"No matter what colour you desire,  
at Mazhar Shafi Textiles, our yarn  
dyeing processes are here to help  
make it possible."*

### 5-Tons Biomass Boiler

A step towards Social Responsibility of producing renewable clean energy.

### Solar Power 360KW

Corporate Social Responsibility (CSR)  
reducing the carbon footprint.
